RE: Project: Town of Chesapeake City Lead Service Line Inventory and Replacements
Location: Various locations in Town of Chesapeake City, Cecil County
Funds: State SRF Loan: $3,100,000, Local Share: $0

Dear Mr. Dubow:

Please initiate State Clearinghouse review of the Town of Chesapeake City Lead Service Line Inventory and Replacements project. The Maryland Department of the Environment intends to secure the Board of Public Works approval for this project in the near future. Enclosed for your review is a package containing a project description, budget, location map and tentative project schedule. Additionally, the package includes a copy of the Categorical Exclusion (CE) consistent with COMAR 26.03.11 since the project is to be financed by the Drinking Water State Revolving Funds (DWSRF) program.

Should you have any questions or require additional information, I can be reached at sunita.boyle@maryland.gov . Your continued cooperation and assistance in the above matter are appreciated.

Sincerely,

Sunita Boyle, P.E.

## CLEARINGHOUSE NOTIFICATION

The Town of Chesapeake City has applied for the Drinking Water State Revolving Fund (DWSRF) from the Maryland Department of the Environment (MDE) for the project described below. The purpose of this notification is to provide Clearinghouse review agencies with advance notification of MDE's intent to provide financial assistance for the project.

**PROJECT TITLE:** Town of Chesapeake City Lead Service Line Inventory and Replacements

**PROJECT #:** DWBL/PF 1114-08L

**APPLICANT:** Town of Chesapeake City

**LOCATION:** Various locations in Town of Chesapeake City, Cecil County, MD
39.527146, -75.813741

**PROJECT DESCRIPTION**

The project entails conducting a service line inventory in the Town of Chesapeake City area to achieve compliance with the EPA's Lead and Copper Rule Revisions/Improvements (LCRR/LCRI). The primary objective is to identify lead service lines, galvanized line requiring replacement (GRR) and lead containing components, such as goosenecks and pigtails, through historical record reviews and field investigations. Based on these findings, the Town will establish a strategic replacement plan to systematically remove, and upgrade identified lead and GRR infrastructure. Completing this inventory and the necessary replacements will safeguard public health and ensure regulatory compliance

**BUDGET**

| | |
|---|---|
| Total Project Cost: | $ 3,100,000 |
| State SRF Loan | $ 3,100,000 |
| Local Share | $ 0 |

**SCHEDULE:**

| | |
|---|---|
| Initiation of Work: | November 2026 |
| Completion of Work: | November 2027 initial inventory |
| | November 2037 final inventory and replacement |

**PROJECT MAP(s):** Attached
